

ONCOLOGY MANAGEMENT PROGRAMME

STRUCTURED AND COORDINATED CANCER CARE

Being diagnosed with cancer can be overwhelming. The Oncology Management Programme is designed to provide structured, high-quality, and cost-effective support to members requiring oncology care, while ensuring access to clinically appropriate treatment and guidance throughout the treatment process.

The programme focuses on coordinating care, supporting informed decisions, and managing benefits in line with Scheme rules and clinical protocols.

WHAT THE ONCOLOGY MANAGEMENT PROGRAMME OFFERS

The programme provides coordinated oncology care through clinical review, case management, and access to a specialised oncology network. Its purpose is to ensure that approved cancer treatments are necessary, appropriate, and aligned with your medical aid benefits.

Treatment Plan Review

All proposed cancer treatment plans are carefully reviewed to ensure they meet clinical and Scheme criteria.

Early detection is your best protection.

ONCOLOGY MANAGEMENT PROGRAMME

Case Management Support

Once registered, you will be supported by a dedicated Oncology Case Manager who will:

- Explain your oncology benefits and available support
- Assist you in navigating authorisations and processes
- Provide ongoing guidance and coordination throughout your treatment journey

Your Case Manager acts as a consistent point of contact to support continuity of care.

Oncology Network Access

Sizwe Hosmed makes use of a specialised Oncology Network to ensure members receive high-quality care at negotiated rates.

Important to note:

- Members are strongly encouraged to use oncologists within the Oncology Network
- Using non-network providers may result in co-payments
- Always confirm with your oncologist whether they participate in the Oncology Management Programme Network

YOUR BENEFITS AT A GLANCE

Registered members have access to the following programme features:

- Review of proposed oncology treatment plans by clinical experts
- Clear communication regarding which treatments are covered by the Scheme
- Guidance on oncology-related benefits and entitlements
- Support with hospital authorisations for cancer-related admissions
- Access to counselling and emotional support services, where applicable

Early detection is your best protection.

ONCOLOGY MANAGEMENT PROGRAMME

Oncology Benefit Limits

- Oncology benefit limits are plan-type dependent
- Some plans offer PMB-level oncology cover only
- Members are encouraged to consult their benefit guide for specific details relating to limits and cover

Tier 3 Medication

Please note:

- Tier 3 oncology medication is only reviewed for members on the Titanium Executive option
- Requests are subject to review by the Oncology Network Panel
- Decisions are based on the clinical information provided in the Letter of Motivation submitted by the treating provider

Questions or Support

If you or your healthcare provider require assistance or clarification regarding oncology benefits or authorisations, **please contact the Oncology team** at [**Oncology@sizwehosmed.co.za**](mailto:Oncology@sizwehosmed.co.za).

Your care, understanding, and support remain central to the Oncology Management Programme.
